

I am writing to tell you that if you expand the LPFM stations, we would potentially lose our favorite station that we listen to regularly (K-LOVE). I have many friends who also listen to this station, which provides exceptional music, but even more importantly it has encouraging words & positive music appropriate for all in the family. This is very important in a society that makes it very difficult to find anything in the entertainment industry that is appropriate for the whole family. Please do not take this station away!
